Taski

Taski is an app to help parents encourage their children to complete household tasks. The app is designed to be efficient to use and easy to understand for people who lack knowledge with technology.

Hill & Sons Beer

This design is targeted towards young adults that are looking for a less alcoholic, and more fun drink. The design mimics the fun of a party, as well as taking inspiration from notebook doodles.

Waddup Dog

A rebrand and website for the hotdog chain Waddup Dog. Targeting a younger demographic, Waddup Dog focuses on bold use of colours and shapes to deliver a fun and unique restaurant experience.

Corner Delights

As concession stand in a park open during summer, Corner Delights wanted to stand out among the others with a bright and vibrant brand. The brand was inspired by the summertime which is seen in the sun logo and the melting elements, and the overall wavyness seen throughout.

Rare Earth Oats

Rare Earth wanted a package to expand their business while keeping their local handmade feel. This is accomplished using a burlap texture and neutral colours associated with nature and used by local farmers.

SerenEase Pet Pheromones

Calmness and nature are the cores of the SerenEase brand, using natural shapes and colours. Along with the brand was a line of products, one package each for cats and dogs. Colours were assigned for each animal so each animals products are easily distinguishable on a shelf.
